## DEMONSTRATION FARMS TO BE ESTABLISHED IN THE PROVINCE

Athabasca Landing, Stony Plain, Olds, Claresholm, Sedgwick, Vermillion and Medicine Hat Are the Places Selected

ANNOUNCEMENT MADE TODAY BY HON. MARSHALL

Announcement of location of the seven demonstration farms to be established throughout the province during the present season, was made by Hon. Duncan Marshall, minister of agriculture, this morning, and bringing to an end the long period of speculation, during which no fewer than forty-nine applications for farms, either by petition or by delegation, have been received by the minister, is brought to a close.

Athabasca Landing, Stony Plain, Olds, Claresholm, Sedgwick, Vermillion, Medicine Hat, are the points at which the farms to be established this season will be situated, and the plan is such as to provide every farmer in the province a reasonable prospect of taking advantage of the instruction to be derived from the work of the farms, and to make possible a test of the agricultural possibilities of every portion of Alberta now accessible by railway.

## TO APPEAL FROM COURT'S DECISION

Mill Worker Not Satisfied With Judgment in Damage Suit.

Appeal will be made to court en banc against the judgment of Mr. Justice Stuart, handed down in the supreme court yesterday, dismissing the action for damages for loss of an eye brought by Peter Smolik, a former worker in Water's mill, against the proprietor of the sawmill.

While working on a lathe saw in the mill in July of last year, Smolik was struck by a flying piece of timber, and his left eye totally destroyed. He entered action for damages under the common law and under the terms of the workmen's compensation act of Alberta, claiming \$2,000 general damages, \$2 a day, wages from the date of the accident until the time when he is able to go to work again together with doctor's and hospital fees. The plaintiff alleged that the accident was due to carelessness and negligence of the defendant and not to any proper protection of the lathe. Mr. Justice Stuart held that the proper precautions had been taken as far as possible under the circumstances.

H. A. Macfie, of Cornsack and Macfie, conducted the case in behalf of the plaintiff, Geo. B. Henwood of Henwood and Harrison appearing for the defendant.

## SASKATCHEWAN CONVICTS TO GO TO PRINCE ALBERT

WILL BE TRANSFERRED FROM ALBERTA PENITENTIARY—LEAVE MONDAY ON SPECIAL CAR—HEAVILY BARRED.

Award a special car, with doors and windows heavily barred, which will be drawn up on a siding near the Alberta penitentiary to receive its thirty-four inmates of the institution who have been brought here from Saskatchewan at different times, to serve terms varying from two years to a life sentence, will be taken to the newly-erected penitentiary at Prince Albert on Monday, May 15th.

Warden Kerr, of the Prince Albert institution, has received a warrant from the department of justice to take over the Saskatchewan convicts that are now incarcerated in the pen at Edmonton. Bringing with him his entire staff of guards, he will come to Edmonton within the next few days to take charge of the prisoners.

A Canadian Northern passenger car will be placed at the siding by the penitentiary building and there it will be met by the special car. The convicts will be escorted to the train by a detachment of the mounted police force will be employed to escort the convicts to Prince Albert, as the entire

## NEW HIGH SCHOOL CHURCHILL AVENUE FORMALLY OPENED

EXERCISES BEFITTING THE OCCASION HELD IN THE HANDSOME STRUCTURE—PREMIER SIFTON AND OTHER PROMINENT CITIZENS PARTICIPATE.

The new high school which has been erected on Churchill avenue at a cost of \$150,000, to meet the demands of the sons and daughters of residents of Edmonton and district, seeking secondary education, was declared formally opened by Premier Sifton yesterday afternoon at the conclusion of a programme of speeches and musical numbers which commenced at 3 o'clock in the assembly hall of the new building.

The teachers of the various public schools of the city, the present high school teaching staff, members of the board of Edmonton school trustees, past and present, citizens and visitors from outside points made up a gathering which filled the auditorium almost to capacity. The chair was occupied by H. B. Butchart, chairman of the present public school board. Seated on the platform were a number of prominent educationalists, such as H. H. Major, the Lieutenant Governor, Premier Sifton, Hon. C. R. Mitchell, minister of Education, Dr. Torrey, of Alberta University, Superintendent Mc-

Caig of the Edmonton schools, Judge Taylor, School Inspector James Hyde and Dr. Dyle, who recently came to the city from Kingston, Ontario, to found the Presbyterian college which is being situated in Strathcona.

All of these gentlemen with the exception of Judge Taylor and Mr. Mc-

Caig addressed the audience during the course of the programme. Premier Sifton expressed the hope that the institution would continue to develop as a part of the general scheme of education to equip pupils for the commercial world as well as for entrance to higher education. His remarks were brief and pointed and he congratulated every one who had a part in the work of providing a new high school for Edmonton on the splendid success of the undertaking, as evidenced in the beautiful and commodious edifice that had been erected.

C. R. Mitchell spoke words of commendation regarding the provision that is made in the new building for teaching domestic science and manual training departments in the city schools of the province.

Mr. James Fife, inspector of schools spoke briefly of the development of the school system in Edmonton and the gradual growth from the time when education in Edmonton was carried on in the home.

Two of the number of those who are to be taken to the Prince Albert penitentiary are serving life sentences. Vincent Major, who was committed to the penitentiary on Nov. 18th, 1906, is doing a life term for manslaughter. The name of the other life man is Luther McBride. He was imprisoned for the murder of his father.

This is the crime for which the majority of the Saskatchewan men have been incarcerated, and in a great many cases it is theft of horses or cattle. Generally speaking, such convicts that will go to the new Prince Albert institution are well behaved men and have given the guards little trouble, according to the officials at the penitentiary. The majority of the men have served about half their entire term.

Following is a list of the names of the convicts that will be removed and the length of term each one has been committed to serve:

Vincent Major, life; C. Stephens, 2 years; Harry Milton Roper, 15 years; A. M. Murray, 7 years; J. J. Moutford, 3 years; D. A. Clark, 5 years; C. Baxter, 5 years; George Marzoff, 3 years.

(Continued on Page Eight.)

## ASYLUM TO OPEN JUNE 1.

The new provincial asylum at Ponoka, which has been erected at a total cost, including furnishings and completing the court buildings, of between \$350,000 and \$400,000, will be opened on June 1, according to present plans of the government. Delays in the opening of the building have been occasioned by the non-arrival of a portion of the furnishings ordered in the east.

## PLAN TO SETTLE VACANT LANDS

A gigantic project for the settling of the vacant lands of Central and Northern Alberta by settlers from the settled states of Ohio, Illinois, Minnesota and Indiana, where the price of land has soared to such a height that none but the wealthiest can acquire it for farming purposes, is to be undertaken by the consolidated Land and Machinery Company, whose secretary, J. W. Currie, is in the city, accompanied by David G. Lowe, an inspector for the Canadian office of the company in Winnipeg.

## BETTER FACILITIES FOR HANDLING TRAFFIC

Street Railway Department Preparing for Big Increase in Business.

Will carry forty-five thousand by fair time. Number of Cars for Active Operation to Be Augmented in Near Future—Special Schedules Will Be Adopted.

That the street railway department will be in a position to handle at least 12,000 persons per day by fair time was the statement made to a Capital representative by Superintendent Knight yesterday afternoon. Last year the biggest day's receipts showed that over 20,000 passengers had been carried in one day, a record up to that time. Now, with eighteen cars in actual operation, the department records show that from twelve to fourteen thousand passengers are carried every day in the week, with the exceptions of Saturdays, when the figures run from 17,000 to 18,000 passengers per twenty-four hours.

By fair time the department will be able to handle at least thirty-one cars and of this number at least twenty-eight will be in actual operation every day. Special schedules will be brought into effect to expedite the transference of passengers to and from the grounds.

(Continued on Page Eight.)

## SCOUTS TO ATTEND THE CORONATION

CITY COUNCIL MAKES APPROPRIATION FOR TRIP OF FOUR BOYS.

The attendance of four members of the boy scouts of Edmonton at the coronation of King George in June was made possible last evening by the grant of a thousand dollars by the city council to pay the expenses of the trip. The matter was raised in discussion last evening by a letter from the board of trade to the effect that the board had gone on record as in favor of a contingent being sent and Archdeacon Gray and Jas. George spoke briefly on the question.

The boys selected are: Geo. Lyman, Parney, Elwood Alexander, Butchart, Edward Hugh Garrison, and William Henry Talbot.

## EDMONTON ENTERTAINS MEMBERS OF THE SHEFFIELD CHOIR IN PLEASANT FASHION

Cloudy weather and muddy side streets, unsuitable for pleasure driving in automobiles, prevented carrying out this morning's part of the entertainment programme for the entertainment of the Sheffield choir. Arrangements had been made for citizens owning automobiles to congregate at the C.N.R. depot at 9:15 o'clock this

morning to take the singers on a tour of the city in their machines but early this morning it was seen that the weather conditions made this impracticable. The Mayor and members of the city council were also to have met the members of the choir and accompanied them on the tour of the city.

Weather conditions did not militate

## BUMPER WHEAT CROP IN CANADIAN WEST SAYS WINNIPEG MAN

GEORGE CARRUTHERS ESTIMATES SEASON'S CROP WILL COVER TEN MILLION ACRES—CONDITIONS FAVORABLE TO AN IMMENSE YIELD.

Indications are that the Canadian West will this year have the biggest wheat crop in its history according to George Carruthers of the firm of Jas. Carruthers and Co., Ltd. grain merchants of Toronto, Montreal and Winnipeg. Mr. Carruthers is the head of the western branch of the firm. Accompanied by W. H. Bond the Toronto representative of the company, he is in Edmonton on business in connection with the firm of Carruthers and Bond of this city.

"It is estimated that the wheat crop of the West this year will cover ten million acres," said Mr. Carruthers, speaking to the Capital this morning. "With a yield of 16 bushels per acre over the entire area the wheat crop should be 160,000,000 bushels and from present indications the crop will average well up to 18 or possibly 20 bushels per acre."

So far all conditions have been favorable to a big yield. The greater part of the spring wheat crop is now in the ground and there is an abundance

## SCHOOL TEACHER DIES SUDDENLY

Miss Amy Griffin Found Unconscious on Floor of the Schoolroom.

High River, Alta., May 10.—Children attending the Alta high kindergarten school were astonished yesterday morning to find their teacher, Miss Amy Griffin, unconscious on the floor. Two doctors were called in and the patient removed to the hospital but she was found to be suffering from convulsions and in spite of all efforts to save her life passed away last night.

The deceased woman was called in and two doctors were called in and the patient removed to the hospital but she was found to be suffering from convulsions and in spite of all efforts to save her life passed away last night.

## COMMISSIONERS BOUILLON AND BUTCHART ARE SERVED WITH COPIES OF COUNCIL CHARGES

Neither Has Anything to Say So Far as to the Probable Line of Defense They Will Make

WILL PROBABLY WANT LOTS OF TIME TO FILE ANSWERS

## ATTORNEY GENERAL IS THE ACTING CHIEF

During the absence of Premier Sifton at the coronation, Hon. C. R. Mitchell, attorney general and minister of education, will be acting chief of the Alberta government. A final cabinet council was held today, just prior to departure of the prime minister for Great Britain. This afternoon Hon. A. L. and Mrs. Sifton left on the C. and E. en route for Montreal and London. They were accompanied by their daughter, Mrs. Claude Dennis, Premier Sifton will be away for about two months.

## BUILDING PERMITS ISSUED

The following building permits were issued from the office of the building inspector this morning:—W. M. Allen, Great Estate, residence, \$3400; W. Lynchwood, residence, Kirkness, \$700; M. D. Brown, Twenty-fourth street, residence, \$1500; Ross Bros., Jasper, \$495.

## DOUBT ABOUT THE GAS AGREEMENT

No One Seems To Know When the Agreement Will See Daylight.

As to when the gas agreement question will be resurrected there is considerable speculation in civic circles. Two resolutions have been passed by the council, one instructing the commissioners and industrial committee to prepare a standard agreement of the council together with the city which would be satisfactory to the council after which the claims of the individual companies would be taken up in order. Last night another resolution was passed calling upon the same parties to prepare an agreement with the International Heating and Lighting Company.

To the Capital this morning the utilities commissioner stated that he had no idea when the question would be taken up. When it was they would follow out the instructions of the council, which reduced to black and white means that two separate agreements will be produced.

It is probable that a report will be completed in time for the next regular council meeting and there is some question as to whether it will ever be settled, or at least not until the present embargo at the city hall is cleared away.

## LAST SAD TRIBUTE TO THE MEMORY JACK WINCHESTER

ALL THAT WAS MORTAL OF POPULAR CITY EMPLOYEE CONVEYED TO LAST RESTING PLACE THIS AFTERNOON.

Shortly after three o'clock this afternoon the body of the late Jack Winchester was laid in the Edmonton cemetery in the presence of one of the largest gatherings of mourners that has ever followed the body of a friend to the grave in Edmonton.

At nine o'clock the remains were removed from the private office of McEwen and Lambert and taken to the late residence on Kingsmill avenue where a private service was held. The body was taken to the First Presbyterian church where a public service was held. It was then taken to the cemetery where it was interred.

All the athletic clubs in the city attended in a body. Among them were the professional baseball teams, Irish Canadians, Catholics, lacrosse club, hockey clubs, city baseball clubs, M. C. A. athletes, and members of the city baseball league. The civic employees attended in a body numbering about 150. The superintendent of all the city departments and a host of friends participated in the cortege which accompanied his body to its last resting place.

The funeral services were conducted by Rev. C. A. Myers assisted by the Rev. F. W. Patterson and took place in the First Presbyterian church, Jasper avenue. The gathering of friends and mourners which was one of the largest that

## RAILWAY CONDUCTORS MEET

Jacksonville, May 10.—The thirty-third annual convention of the "third division" of the Order of Railway Conductors of America opened in this city today with more than a hundred delegates from all parts of the United States, Canada and Mexico. The railway men will be in session several weeks and much important business will be transacted. Grand President A. E. Goretson called the gathering to order and announced the appointment of the various convention committees. While the railway conductors are holding their sessions there will also be held the annual convention of the Ladies' Auxiliary of the order.

## MISS AMY GRIFFIN FOUND UNCONSCIOUS ON FLOOR OF THE SCHOOLROOM.

High River, Alta., May 10.—Children attending the Alta high kindergarten school were astonished yesterday morning to find their teacher, Miss Amy Griffin, unconscious on the floor. Two doctors were called in and the patient removed to the hospital but she was found to be suffering from convulsions and in spite of all efforts to save her life passed away last night.

## LAST CONCERT TO-NIGHT—AUDITORIUM

# Sheffield Choir 200 Voices

AND NINE EMINENT BRITISH SOLOISTS

Dr. HENRY COWARD, *Conductor*

Tickets, \$3 and \$2 at Harmony Hall

**SPECIAL**—To give every music lover in Edmonton an opportunity to hear this superb organization at the Auditorium tonight, a limited number of admission tickets at \$1.00 will be on sale at Harmony Hall today, as well as at the Auditorium.

Doors open promptly at 8 o'clock. Concert commences at 8:30 sharp.

Commencing tomorrow Sherman and Cleveland's Mercymakers will present an up-to-date minstrel show at the Lyceum. No pains has been spared to make this the greatest minstrel production ever presented in Edmonton. Every member of the entire company will don the burnt cork, including the choruses, who will be garbed in full dress suits. About twenty-five people will take part in the production.

## IMPROVEMENTS FOR SEDGWICK

Demonstration farms, road improvements and telephone extensions were discussed by W. Stewart, M. P. for Sedgewick, in an interview with Premier Sifton yesterday. Mr. Stewart has just returned from a tour of eastern Canada, and this morning he had many matters to bring before the government concerning the interests of his constituents.

"There will not be very much telephone construction in my constituency this year," said Mr. Stewart in conversation with the Capital. "Last year the expenditure upon this work was considerable, and the need is not so great as it formerly was."

Mr. Stewart spent a short time in his constituency after his return from Toronto, before visiting the capital, and he declares that in Sedgewick, throughout Alberta and the west generally, the crop prospects have never been better since he came into the province.

"The resources of the north country was the subject of an interesting and instructive address delivered by J. K. Cornwall, M.P.R. before the Royal St. George's Society in their hall in the Norwood Bldg. Monday evening. During the course of his address Mr. Cornwall dealt extensively with the resources of the north and the business which will originate there once the land is settled up."

Judgment for \$131 and the costs of court was given by Judge Noel in the district court of Athabasca yesterday morning in the case of *Borle vs. Plaisten*.

## FIELDING GIVES OUT ESTIMATES

Total of \$156,000,000, Increase of \$20,000,000 Over Last Year.

Ottawa, May 10.—Hon. Mr. Fielding yesterday evening tabled in the Commons supplementary estimates totalling slightly over seventeen millions of dollars. The estimates for the year now total over \$156,000,000 an increase of \$20,000,000 over the estimates of last year. One hundred thousand dollars is to be provided for a new printing bureau at the Federal Capital.

Estimates for public buildings in the west are as follows:  
Brandon, public building, addition, \$25,000; Dauphin, public building, improvements \$14,000; Minnedosa, public building, with armory accommodation \$16,000; Morden, public building, \$10,000; Winnipeg, examining warehouse (new) revote, \$20,000; Winnipeg, old post office building, fitting up ground and first floors for customs purposes, revote, \$25,000; Winnipeg, public buildings, pavements, sewers, inclusive of \$82,132 interest, etc., \$11,000; total \$105,000.

Saskatchewan and Alberta—Albany Landing, addition to public building, \$1,000.

Battleford, North, public buildings, \$3,000; Battleford, telegraph office building, heating apparatus, etc., \$1,300.

Calgary, rating station for geodetic survey, \$5,000; Calgary, new post office building, \$75,000; Calgary, immigration building further amount required, \$25,000.

Canmore, public building, \$10,000; Edmonton, public building, to pay local improvements, etc., \$3,727.63; Edmonton Dominion lands office (revote), \$20,000; Edmonton, public buildings, to complete, \$7,000; Gravelbourg telegraph office, etc., \$3,000.

Indian Head, forestry nursery station, additional accommodation, \$5,000; Lethbridge, custom house and Dominion lands office, new heating apparatus, sanitary works, plumbing, etc., \$5,000.

Regina, public building, to complete (revote) \$15,000; Regina, armory and drill hall, further amount required, \$30,000.

Saskatoon, purchase of land for public buildings, further amount required \$15,000. Total, \$229,027.63.

## VERMILLION HAS LIGHT TROUBLES

WAXES WARM ENOUGH TO TRY IT OUT IN THE SUPREME COURT.

\*\*\*\*\*  
In his judgment in the case of *The Vermillion Electric Supply Co.*, handed down in the supreme court late yesterday afternoon, Mr. Justice Stuart allows the company one month in which to put the plant in operation. If the plant is not in full operation at the end of that time, the company's franchise granted by the town will be cancelled. The town is given leave to order cancelling the contract should the company fail to make good.  
\*\*\*\*\*

If Edmontonians are a little wiser, the particular brand of philosophy which finds solace for misfortune in the knowledge that others suffer more, the experience of the town of Vermillion, as revealed in the supreme court yesterday, will provide her a gratifying story.

Edmonton has had her troubles with a gas producer, Vermillion has been in the position for months past of having no power and lighting plant at all.

The town which has been compelled to resort to the use of oil as an illuminant since November last, owing to the failure of the Vermillion Electric Supply Co. to supply them with "juice" are applying in the supreme court today for a mandamus to compel the company to repair their plant and keep it in proper running operation. In the alternative the town seeks damages and the cancellation of a contract entered into in 1928, whereby the company was given an exclusive franchise for 10 years.

A clause in the contract provided that the company should light the streets of Vermillion from twilight to 2:30 a.m., and from dawn until dawn morning in the dark months, until sunrise. It is claimed that the company failed to give the light service on many occasions.

It is claimed by the plaintiff that the inhabitants of Vermillion have been practically without electric light since November last. First the failure of the C. & N. R. to deliver Pennsylvania coal in time to meet the requirements of the plant, and secondly the breakdown last fall of a part of one of the engines, are the reasons ascribed for the failure of the company to give satisfactory service.

Mayor R. J. Dunsmore of Vermillion and Secretary C. V. Caesar, are in the city today in connection with the case. In conversation with the Capital he revealed to the condition of affairs in Vermillion. Mayor Dunsmore expressed the opinion that the municipality is not very wary in regard to any future franchise proposition. "We shall give very careful consideration indeed to any future franchise proposition before we enter upon it," said Mayor Dunsmore. Robert L. Fife and Wm. Franklin, million Electric Supply Co., are the defendants in the action. Al. Parke of Boyle and Parke appeared for the plaintiff. Frank Ford, K.C. of Ebers, Newell, Ford, Bolton and Mount for the defence.

## BANK OF BRITISH NORTH AMERICA

OPENED FOR BUSINESS THIS MORNING IN THEIR TEMPORARY QUARTERS.

The Bank of British North America opened for business this morning in their temporary quarters, corner First street and Jasper avenue, in the building formerly occupied by the National Trust company. Alex. K. Henderson, formerly manager of the branch at Macleod, has taken charge of the branch here.

Including branches the Bank of British North America is the nineteenth to establish here. With one exception Edmonton now has more banks than any other city of its size on the continent.

Hon. and Mrs. A. L. Sifton and their daughter, Mrs. Clarke Dennis, left on the southbound train yesterday at 3 o'clock en route for London, England, where they will be in attendance at the coronation of King George V. Premier Sifton will be away from the city for about two months.

The portion of the Blackfoot Indian reserve adjacent to the irrigation ditch of the Southern Alberta Land Co. is to be offered for sale by public auction on June 14th at Gleichen. This reserve which lies south of the town of Gleichen is one of the best reserves in the province and a keen interest will undoubtedly be taken in the sale.

## FARMERS PROTEST TO PRESIDENT TAFT

Against Reciprocity Agreement  
But Declares He Will Stay With It.

Washington, May 10. — President Taft yesterday afternoon informed a delegation representing the National Grange that he intended to push the reciprocity agreement through even though it might cost him the vote and influence of all the American Farmers. N. P. Holt, the spokesman of the delegation, informed the president that the farmers were opposed to reciprocity. In the northern states especially it meant that they would accept the lower prices for their wheat which would mean a halt in the improvement of their homes and the education of their children.

The spokesman informed the president that never had the chief executive of the United States had a stronger hold upon the agricultural element but that the enactment of reciprocity would mean a halt in the improvement of their homes and the education of their children.

President Taft replied that he appreciated the support which he had received from the farmers and felt that it would be increased after reciprocity had been given a year's trial. He believed that the treaty would prove of vast benefit to the entire United States. An artificial wall between two countries situated as are Canada and the United States was a farce. The taking down of that would mean that the States would sell more to Canada than she could sell to the States for many years to come.

The president was willing to take the consequences of his actions and felt that future generations would approve of the act which increased closer relations between the United States and Canada.

James Gordon Bennett is 70 New York, May 10.—James Gordon Bennett, editor and proprietor of the New York Herald, reached his seventieth birthday today, having been born May 10, 1864. Mr. Bennett has been in Europe. Of late years his visits to New York have become fewer and further between, although he is the Herald's "as of old." Those who met him on his latest visit here have noted that time deals kindly with him. He still has the bright aggressive energy and the big determination of character that was stamped upon his brow when he was a more familiar figure in the streets of New York than he is today.

Pauline Perry has become the leading lady of a stock company in New Haven, Conn.

## Great Events

Occur frequently in Greater Edmonton. The future is assured and the amalgamation will more than benefit both socially and financially. All the large rivers flow by the big Cities and the masses congregate and settle permanently where conditions are favorable and cheap property available. No quarter of the globe has more favored conditions than Greater Edmonton. Farm lands are now priced at about 50 per cent. of their real producing value, while city property is in reality in the raw state, with everything in its favor. We have a large list of

## Farm Lands

Also city property on both sides of the river at prices that suit their own story and demand quick action. Let us take a shot at your real estate. We can relieve your shoulders and "We will always leave you laughing when we say goodbye."

## Council Should Leave No Loophole In Investigation

Having spent three months in wrangling with Commissioner Bouillon the city council has finally got down to the place where they lay definite charges and undertake to carry out an investigation on three counts, misrepresentations to the council, lack of business ability and conduct leading to lack of harmony among civic employees.

The Capital has all along contended that such an investigation, the court to the contrary notwithstanding, was uncalled for and unnecessary, the mere fact that the council, which is the body elected to represent the ratepayers, having concluded that a civic employee is not the man for the job being sufficient reason for a change in the personnel of the city's staff.

However, as the court has interpreted the charter to mean that an employee of the city has a proprietary right in employment which an employee of a private corporation has not, the course taken by the council is the only course open to it under the ruling of the court.

Of the charges laid, the first, which is easiest of proof, is least in importance, while the last, which is most important, is scarcely susceptible of proof at all.

To prove, for instance, that Mr. Bouillon received some certain report and that he failed to show the report to the mayor and council does not really amount to much, providing always that the report itself does not amount to much, providing the report itself did not amount to much, or covered something which has already been decided. To wit, the incident of the street railway track on Sutherland from First to Namayo. In this case it might easily be shown that the street railway superintendent reported unfavorably to this connection and it might easily be shown that the commissioners pigeonholed the report, but it might also be shown that it had been decided by a former council or former commission meeting to build this piece of track and that the construction was therefore a part of the city's programme already accepted and already beyond the place where reports affected it.

On the other hand, when the council comes to proving that Mr. Bouillon has wrecked the expert de corps of the city's staff of employees it has a very difficult job on its hands, owing to the fact that the mental processes of neither the commissioner nor the superintendents can be laid on the table for analysis and no examination could show the ramifications or the cost of the feeling of uneasiness, insouciance and discontent which undoubtedly prevails from the top right down to the motor men and the laborers on the city work.

As for the question of mismanagement, the proof is likely to be largely prefractory. It is a matter of common knowledge that Commissioner Bouillon has not shown the business ability nor the organizing ability that the city had a right to expect from its \$10,000 man. Certainly the items mentioned are easy of proof and are by no means complete, the one omitted item of the street railway management in which the city was loaded up with the capital charge for months of the east and west end branches while the rails lay under the snow being sufficient to show that Mr. Bouillon either did not rise to the occasion or that he was careless of whether the city's street railway enterprise was wrecked by an overload of fixed charges or not.

When the council investigates it is to be hoped that it will leave no loopholes by which the matter can be carried again to the courts and the final disposition of the case delayed, for it is certain that the loss to the city has already been greater than could be estimated in dollars and cents, and a continuance of the present unsatisfactory conditions would certainly lead to a very decided crippling of the city's municipal enterprises and activities.

As for the outcome of the investigation, it is scarcely possible that even Mr. Bouillon himself looks for any other finale than that his connection with the city will terminate with the report of the investigation.

## Mr. Butchart's Part That of An Accessory To The Entanglement

In joining Mr. Butchart's name with that of Mr. Bouillon the council is practically taking the ground that the two commissioners have worked hand in hand to accomplish the discomfiture of the elected representatives of the ratepayers and that as Mr. Butchart has acted the part of second to all Mr. Bouillon's actions, he is as responsible as the man who was the real dynamic in the policy of aggravation.

In this stand the council is certainly on firm ground. Had Mr. Butchart been a stronger man and had he set up his own judgment and intruded his own personality in the places where Mr. Bouillon was obviously wrong, Mr. Bouillon would have been powerless to entangle the city's affairs in the way he did.

But having chosen to side with Mr. Bouillon for better or for worse, Mr. Butchart should be prepared to take his medicine.

## An Excuse Which Places Mr. Oliver In Worse Position

It is now being urged by pro-Oliver partisans that the reason why the minister of the interior does not want to show his bank account is because the money was placed in his hands as campaign funds and that it would not be in the interests of the Liberal party to lay bare the workings of the election machinery.

Taking these people at their word and waiving the question of corrupting the electorate, the case for Mr. Oliver is worse than ever. The bank account shows that on September 11, 1909, there was deposited to Mr. Oliver's credit from Ottawa the sum of \$19,350.

There was no election on at that time. What was that money for and where did it come from?

### JUST PARAGRAPHS

While it may be true, as the farmers contend, that the weigh scales which Mr. Bouillon built are not strong enough to weigh a load of hay, they might be strong enough to weigh Commissioners Bouillon and Butchart.

Medicine Hat offers Frank Oliver a nomination in case he fails to get one in Edmonton. Medicine Hat is certainly erudite. If Mr. Oliver fails to get a nomination in Edmonton, how much weight does the Hat organization imagine he would carry in Ottawa?

### NEW SCHOOL CHURCHILL AVENUE FORMALLY OPENED

(Continued from Page One.)

In very humble quarters to the present day when the city boasts of the most up-to-date school buildings to be found everywhere in the Dominion. Dr. Dyle who was the next to speak said that he knew of no other city in the Dominion that had erected a high school building better equipped or more beautifully designed than the one whose opening was being celebrated. He spoke of having held the opinion before coming to Edmonton that in reaching a point this far north and west in the Prairie provinces he would be getting very near the "terminus" in the matter of civilization, but he found on his arrival that citizens of Edmonton regarded the city not as the end of the line but as the gateway to a greater country in the north. He found the expression "The Gateway City" applied to Edmonton by men high up in government circles.

Dr. Tord in the course of a brief speech expressed the belief that the staff of teachers now in charge of the work in the new high school would produce the best results in the success of the pupils under their charge and in laying a foundation for general usefulness when the scholars went out into the duties of life. He said that something else was needed in educational institutions beside costly, well designed and thoroughly equipped buildings, to secure the best results from the teaching. Men and women with high ideals and a love for their work were essential, and he believed that these were to be found in Edmonton schools.

The speeches were interspersed with musical selections from an orchestra and patriotic songs by the scholars. At the conclusion of the programme Premier Sifton declared the school formally opened. The architect who designed the building, Roland W. Lines, and the contractors Connell and Spencer who erected the edifice received gracious commendation from the speakers. At the conclusion of the programme the visitors spent some time in an inspection of the building and many were the expressions of surprise at the splendid rooms and the equipment for the school work. A souvenir of the opening of the school prepared by Superintendent Mc-

Caig was distributed to those present at the ceremonies. The attractive little booklet contains a history of the development of the school system from the early days of the city until the present time and is illustrated with pictures of the various city schools and the men who have been prominent in educational circles since the beginning of the work in Edmonton.

## SMASH RECORDS FOR IMMIGRATION

Montreal, May 10.—It is stated by C. P. R. officials that the month of April just past has broken all records for immigration by over 3,000 people. At the same time the rush through Montreal with the opening of navigation to Montreal has started in at a rate that bids fair to make May exceed the figures for April. During the month just ended the C. P. R. carried from St. John to Montreal and thence westward no fewer than 29,321 immigrants, not counting small children, or over a thousand a day, exclusive of Sunday. This is an increase of over 19,000 on the figures for March, when 18,000 immigrants were brought through. During the sixty-two days of March and April this year the Canadian Pacific carried 50,000 immigrants through to the new lands of the west, a number far in advance of any previous immigration statistics.

### EDMONTON ENTERTAINS SHEFFIELD CHOIR

(Continued from Page One.)

building and the tables that were spread within a beautiful manner. A large number of representative citizens were present and the members of the choir were officially welcomed to the province by His Honor, the Lieutenant Governor and to the city of Edmonton by His Worship, Mayor Armstrong.

The minister of agriculture was present and was one of those to deliver an address. Mrs. Arthur Murphy also spoke.

Lieutenant Governor Buleva was the first speaker at the close of the luncheon. He dwelt at length upon the illimitable resources of the province and the opportunities and advantages offered to the settler.

Mayor Armstrong, on behalf of the city, welcomed the visitors. His Worship expressed regret that the weather had not been more propitious during their stay and expressed the hope that they had been enabled to see the city and learn something of the farthest northern point in Canada connected with the outside by railways. The city extended to the choir a hearty welcome and the goodwill of the citizens would go with the choir on its entire trip.

Hon. Duncan Marshall, minister of agriculture, was the next speaker. He dwelt at length upon the opportunities offered in the west, especially to the settler of moderate means. Alberta was enjoying an influx of settlers unprecedented in history and of these a large number were from the northland. He was glad to welcome the choir in Alberta as he felt that these as they were now making their way to strengthen the bonds of union between the mother country and all her colonies.

Dr. Coward in a fitting speech replied on behalf of the choir. They were delighted with the treatment accorded them while in the city and while the inclemency of the weather had prevented their seeing as much of the city as they would like nevertheless they would carry away with them lasting impressions of the progress and prosperity of the west. Premier Sifton was supposed to speak but advised those present that owing to the fact that he was leaving for England tomorrow to attend the coronation it would be impossible for him to be present.

### Eczema is Curable

In Every Case Where Our Remedy Fails It Is Supplied Free of all Cost.

In making this statement we back it up with our promise that if our remedy does not substantiate our claim in every particular, we will without question or quibble return every cent you paid us for it. We take all the risk—*you take none.*

We strongly recommend **Reckall Eczema Ointment**, which possesses remarkable cleansing, antiseptic, germicidal, soothing and healing qualities. It is a grayish-white emulsion, with a pleasant odor, and very cleanly for use. The first application produces a refreshing sense of relief, and it quickly subsides and overcomes the inflammation, itrelieves itching and discharge when present.

It is intended to be applied with a piece of muslin or linen, or it may be applied and allowed to dry in. It affords very prompt relief for pimples, blotches, discolorations, ringworm, acne, itching, hairiness, itchy, ulcers, insect bites, nettle rash, hives, sores and wounds.

Reckall Eczema Ointment relieves itching and irritation of the feet. It is ideal for the treatment of children who are tormented with itching, burning and disgusting skin diseases. Try that box at our risk. Two sizes, 50c and \$1.00. Remember, it is only sold at our store—The Reckall Store, A. Archibald.

### TENDERS FOR SUPPLIES

Sealed tenders, addressed to the Provisional Secretary and endorsed "Tenders for Supplies," will be received at the Department of the Provisional Secretary, Parliament Buildings, Edmonton, up to noon of Monday, the 12th day of May, 1911, for the supply and delivery at the Hospital for the Insane, Ponoka, for the balance of the year 1911, for the articles in the classes following, that is to say:

1. Meats of various kinds.
2. Butter and eggs.
3. Flour and oatmeal.
4. Soap.

Each tender must be accompanied by a deposit on a chartered bank of five per cent. of the amount of the tender made payable to the order of the Provisional Secretary, which will be forfeited to the Government of Alberta in case the successful tenderer refuses or neglects to enter into contract, or when entered into fails to carry out the provisions thereof. Specifications may be seen, approximately qualified goods, and form of tender supplied upon application to the Department of the Provisional Secretary, Edmonton.

The lowest or any tender not necessarily accepted. Newspapers inserting this advertisement without written authority from the Department will not be paid for it. W. A. DEYL, Deputy Provisional Secretary, Edmonton, April 26th, 1911.

### OTAWA, MAY 10.—Sir Allan Aylesworth has given notice of a resolution setting forth that it is expedient to provide that an annuity equal to their present salary be granted to each of the two judges of the territorial court of the Yukon now holding office, the annuity to be continued during the natural life of the judges.

The following fee shall be paid to the department of the Provisional Secretary for Motor Vehicle permits, renewals, and transfers:

For permit on first application \$2.00  
For permit to manufacture on application \$2.00  
For annual renewal of each permit \$2.00  
For transfer of permit \$1.00  
For change of ownership of a registered Motor Vehicle the permit shall go with the vehicle and notice of such change of ownership shall within twenty-four hours be sent by the person to whom the permit was issued to the department of the Provisional Secretary together with the full name and address of the purchaser and the purchaser's name and address on the transfer fee.

A number corresponding to that of the permit shall be exposed upon the vehicle in the front of which the permit was issued. No person may be issued a manufacturer or dealer in Motor Vehicles and persons applying for such permits, which said permit shall apply to any dealer may from time to time, during the term of the said permit hold for sale and not for private use only.

6. Such permit may be renewed from year to year on the terms set out in Section 2 hereof.

7. For any reason any permit issued as aforesaid shall lapse and not be required, the person applying for such permit shall cancel any permit issued as aforesaid.

E. TROWBRIDGE, Deputy Provisional Secretary.

EVERY CITIZEN OF EDMONTON WHO REALIZES THE OPPORTUNITIES presented by the Edmonton Portland Cement Company, Limited, will subscribe for shares in this enterprise, to the extent of his ability to purchase without delay. It is the biggest thing this country has ever known, and the purpose of this Series of Articles is TO INFORM THE PUBLIC of what this Institution means to this Community.

## ARTICLE NUMBER THREE

The time-worn phrase "Distance Lends Enchantment" has its foundation in a fundamental fact of human nature, which always clothes with romance those things that are in the distance. The heroes of history are surrounded by a halo which they would never get if they lived in Western Canada today. The great world movement of immigration is the result of a wander-lust which the call of distant lands awakens. In anything, it is that which one sees in the distant perspective which charms the most. And it is what lies at ones very door that is most likely to be overlooked altogether. That is why Astronomy was the first of all sciences and Chemistry the last to reach perfection, and it is why gold was first found in California in a cabbage patch.

The city of Edmonton has not exactly been raising cabbages where the wealth of gold lies hidden, but a muskeg swamp, which has heretofore served only as a summer resort for a particularly carnivorous tribe of mosquitoes, will shortly be the site of a prosperous town. And instead of the buzz of pestiferous insects, the whirl and clash of machinery will be heard, and the tall smoke stacks of great mills will soon stand sentinel where today only the slender poplars await the coming of enterprise.

The marl deposit on the property of the Edmonton Portland Cement Co. is sufficient for the manufacture of at least 12,500,000 barrels of Portland Cement, and no one now knows how much more. This means a future addition to the

business of this community of at least \$35,000,000 and a profit to the stockholders of the Edmonton Portland Cement Co., Ltd. of at least \$20,000,000. There have not been twenty gold mines on the American Continent which have produced as much wealth as is waiting to be claimed on this property at "Mile twenty-three" on the Grand Trunk Pacific Railroad.

These are facts and while the story would be easier for the people of Edmonton to believe if the good fortune had fallen to the lot of Calgary or Winnipeg or Quebec, or Halifax—the farther away, the easier to believe—the truth is that this great find is the good fortune of Edmonton, and no saner or truer fact could be stated than if the people of Edmonton realized what the opportunity means, every man and woman in this city who has an idle hundred dollars would have a share of stock in the Edmonton Portland Cement Company, Limited, before the sun sets today.

As was stated in Article No. 2 yesterday, prosperous cement mills are found wherever both of the necessary materials for Portland Cement manufacture have been discovered. Portland Cement requires two materials which have no geological association, and are therefore only found adjacent to each other BY MERE CHANCE. Marl or lime-rock must be found for the carbonate of lime, and clay, shale or slate for the silica. BOTH of these materials IN INEXHAUSTIBLE QUANTITIES and in their most accessible forms, have been

found on the properties of the Edmonton Portland Cement Company, Limited, within five miles of each other and both on the main line of a great railroad.

An abundance of cheap coal is near at hand and Portland Cement can be manufactured on this property cheaper than at any other mill in Western Canada.

The market is waiting and at the very door. More than FOUR HUNDRED THOUSAND BARRELS of Portland Cement will be consumed during the year 1911 in the City of Edmonton and to the west along the line of the Grand Trunk Pacific Railroad. ONE MILLION TWO HUNDRED THOUSAND DOLLARS will be sent to Eastern Cement mills, and paid in freight charges for this cement.

The Edmonton Portland Cement Company expects to have its plant in operation by May of next year, and thereafter THIS VAST SUM OF MONEY WILL BE KEPT AT HOME and the profit on this great business, more than SIX HUNDRED THOUSAND DOLLARS annually, will be distributed among the stockholders of the Edmonton Portland Cement Company, most of whom will be Edmonton citizens.

This is another reason why every man or woman in this city who has \$100 or \$10,000 of idle cash should subscribe for shares in the Edmonton Portland Cement Company, Limited, today.

## SOCIETY EDITOR, OFFICE BOY AND PLAYERS GIVE ACCOUNT OF GAME

It's a Bum Child That Shoots Its Own Father

By "Bud Fisher

## VARIAGATED DISCRPTIONS OF BALL GAME BY MANY PEOPLE

EDMONTON WON GAME BY SCORE OF 7 TO 3—SOCIETY EDITOR, OFFICE BOY AND PLAYERS GIVE THEIR OPINION OF RAGGED GAME—UNANIMOUS IN THEIR OPINION OF UMPIRE.

The Berry Pickers were a little sore as the result of last night's game being called in the middle of the seventh innings after they had pushed two runs over the crosstie and at having the last man hit but who slipped out a hit good for four places called out for cutting second, killing a run and all possibility of winning the game. However, it didn't matter. His umpire declared proceedings off and the score reverted back to the conclusion of the sixth inning, making the final seven to three.

The varied collection of criticism that formed the Saskatoon outfit didn't like it a bit. They made noises at his umpiring and threatened to protest the game, but the score remains seven to three and no protest has been entered.

Nasty Bowtell made what looked like one and then when he failed to declare a run came up for interference which he got mixed up with Mills and a batted ball at shortstop. The ball struck his foot before Mills touched it, but the umpire thought Mills had it first and dropped it on his foot.

Edmonton started the game off with a big splash, Mackin punching the sphere for two of the runs, Dudley following with a pair of similar proportions, scoring Johnny. Dudley then took the lead off the pill and pulled his feet for three spaces, scoring Dudley over the rubber. Cox arranged his fingers with Irish Grange privately, and died suddenly.

Edmonton was then scored by two runs and pulled two more runs, four runs, four runs. Paul Morse worked the mound, but was inside for eight hits. Paul lost a bad pitcher, however, even if he did send three to the bag. Fish did not allow a run to get on the scoreboard by balls. He hit Grange twice and Irish threatened to punch his head. This was the only time he let a run get there without a hit.

Morse got wild in the fourth and forced a run by hitting Baxter with the bases full. Dudley had got on by a single, but walked and Cox advanced him a base by a sacrifice. Brennan was hit by a blast that slanted low. No way was hit and Dudley came home.

The last two runs came in the sixth.

As the result of three hits, Sorrenson called safe. Fish went into third by a safety, and Mills brought both home by a three bagger to center field. Mills died trying to squeeze to the plate.

The Berry Pickers put their three runs in the third. Finney pumped the sphere safe. Carney fouled down to Sorrenson. Morse batted, advancing Finney to third. Murphy studied and Finney scored. McCallen drove to short but Morse, who was making for third run in front of Mills and a collision ensued, Morse booting the pill. His umpire called him safe so an error had to be scored against Mills. Welsh singled, scoring Morse and Murphy. Trainer and Grange expired fast.

In the first half of the seventh which was played before the game was called, Carney got into the base because Brennan was so sure of a grounder. The error does not affect his standing, however, as the inning is not officially scored. Morse hit Paul. Murphy proceeded to second and Morse died at second, allowing the Irish to score. The last run was scored by McCallen swatted the leather over center, and ran around the circuit but upon reaching first he was called out and then called the game on account of darkness.

The score by innings:

	1	2	3	4	5	6	7	8	9	Total
Saskatoon	0	0	0	0	0	0	0	0	0	0
Edmonton	4	0	1	0	0	0	0	0	0	5

The box score was:

	A.B.	R.	H.	P.	E.
Mills, ss.	4	1	3	0	0
Mackin, 2b	4	1	3	0	0
Welsh, 1b	4	0	1	0	0
Burr, cf.	2	1	0	0	0
Trainer, 3b	3	0	0	0	0
Brennan, 2b	2	1	0	0	0
Sorrenson, c.	3	1	0	0	0
McCallen, p.	2	0	0	0	0
Hatter, 1b	1	0	0	0	0
Total	24	7	18	7	1

(By the Society Editor.)

Ough! It was cold. The wind was like that which I met in January and the ladies of whom I noticed quite a few in the audience, wearing low necked dresses, were treated to a blow bath that was anything but Turkish. Some of the men fans were pulling out their checks and blowing through their feet on the boards.

It is customary to notice in describing a ball game to tell something about the features. If I were to speak of the boys' features seen one would learn, but I really liked the looks of that little red headed Berry Pickers' Finney. Some one reminds me of a girl. Maybe it's the same.

The umpire was mean not to call that run.

in the third inning when he ran into Mills. I know he should have been out because he was out.

Mr. Burr hit the ball a really nice whack when he swatted—there, I said it, but it is awfully like swearing—it out and ran around three cushions.

And Edmonton won the game. Note—it is just like a woman to leave out the most important thing—the score. Spt. Ed.

(By the Office Boy.)

The highwire act runs its course says I can write only a few lines.

(By the Court Reporter.)

An injunction to restrain the continuance of the game of baseball was granted in the district court last evening by Dispenser of Sentences. Questionable justice, however, but although this had not been sought by the pro-Edmonton party, and the holding up of the city's business (it) caused general dissatisfaction, it is improbable that the case will be appealed to the court one day.

A disposition to contempt of court among counsel for Saskatoon and Edmonton alike, and many marauding instances of contempt among the members of the jury, who perched up in a cage at the rear of the court, were as voracious in their protestations that the judge was punk, as counsel in the famous Camera trial are reported to be, were over with a island snail by his umpire.

One of the leading counsel for the defendant Saskatoon, which lost the action last evening by seven runs to three, is alleged to have proposed that he take a minimum in the higher court of muscular force, to compel the alleged punk to leave the diamond.

The injunction will expire at 6:15 this evening, when the argument will be resumed.

###### Game 6:15.

## SCHEDULE OF C. BASEBALL LGE. DRAWN

### SEASON OPENS MAY 29, CLOSES JULY 21—GAMES TO BE PLAYED AT CITY PARK.

A meeting of the Edmonton City Baseball League was held last night at the Y. M. C. A., where representatives from Y. M. C. A., Norwood, and Irish Canadians were present with President Michaels in the chair and Secretary Matthews attending to the minutes.

It was moved and seconded that Messrs. Ward, Matthews and Collins be appointed a committee to interview Manager Harrison of the Exhibition Association in regard to fixing up a suitable diamond at City Park where all the league games will be played.

The work of drawing up a schedule then commenced and it was decided that each team play four games with the other clubs, the games to take place on Mondays, Wednesdays and Fridays.

The schedule:

May—	29—Retailers vs. Y. M. C. A.
31—Irish vs. Norwood.	
June—	1—Retailers vs. Irish.
2—Y. M. C. A. vs. Norwood.	
3—Retailers vs. Irish.	
9—Y. M. C. A. vs. Irish.	
10—Irish vs. Retailers.	
11—Norwood vs. Irish.	
12—Norwood vs. Y. M. C. A.	
13—Norwood vs. Irish.	
14—Irish vs. Y. M. C. A.	
15—Irish vs. Norwood.	
16—Retailers vs. Irish.	
July—	1—Y. M. C. A. vs. Norwood.
2—Retailers vs. Norwood.	
3—Y. M. C. A. vs. Irish.	
4—Y. M. C. A. vs. Retailers.	
10—Norwood vs. Retailers.	
11—Norwood vs. Irish.	
12—Norwood vs. Y. M. C. A.	
13—Irish vs. Y. M. C. A.	

The second game in the intermediate league was played at Strathcona last evening. The competing teams being the Edmonton S. O. E. and the Radials. The game was close throughout, there being little to choose between the two teams. After some very exciting play, the S. O. E. got the home end of the score, 1 to 0. The teams were:

S. O. E.—England—Drake, Stroud, Hatt, Nelson, E. Smith, Addy, Wright, Cox, Morrick, A. Hutton and H. Hutton.

## GAME WAS A DRAW

### The Norwood team and the Y. M. C. A. "B" team played an exhibition game of soccer last evening at the Second street grounds, the result being a scoreless draw.

Y.M.C.A. VS. HIGH SCHOOL

There will be a practice game of base ball on the second street grounds this evening between Y. M. C. A. and the High School.

ST. GEORGES VS. SWIFTS

The Saints will play Norwood in the Senior team on Swifts' grounds at North Edmonton, on Friday evening, May 12th, and will meet at Windsor hotel at 6:15 p.m. The following will be the lineup of

the Saints: Goal, E. W. Parker; backs, S. Whitchard and H. G. Chapman; half-backs, Mitchell, Clayton and Luckworth; forwards, Evans, Francis, Todd, Turney and Jennings.

The manager of the Moose Jaw team is not with the bunch. He is out scouting for new players. The Moose Jaw team seems to be a healthy bunch of stout fellows and may put up a better fight against the locals than the "Irish" "optimistic town." Moose Jaw plays here all week and a double header is scheduled for Saturday—Calgary Herald.

The Calgary ball club have decided to start the games at 6:15. This will give the employed a chance to get out to the park and see the boys work. If Calgary players don't mind missing their supper to see a game if the ball put up is good.

there should be crowds there this week. His burr has big feet but he can move faster than he appears to be moving. When he gets started moving it's hard to stop him and he was illustrated by what happened to the second baseman on the Saskatoon team when he got in the way.

The kid huggers who played with Moose Jaw on Saturday was let out by Moose Jaw. He is an outsider, but Wiley was stuck for a third sacker and put him there. Hugs was signed by Victorias at the first of the season but was let out and handed to the Boston Braves.

Manager Wiley was rejoicing last night for his club was reinforced by three new players, turned over to him by the club in the American Association. He has other ones on the way, and expects before the end of the week to give the Rockies in several trimmings.
